# OUR MISSION

## YMCA OF THE USA MISSION STATEMENT

To put Christian principles into practice through programs that build healthy spirit, mind, and body for all.

## KENTUCKY YMCA MISSION STATEMENT

To develop engaged citizens and servant leaders inspired to affect change in their school, community, Commonwealth, nation, and world. Through experiential learning, service, and community activism, the Kentucky YMCA Youth Association fosters critical thinking, leadership, and social responsibility in teens.

## CORE VALUES

Honesty  
Caring  
Respect  
Responsibility

## AREAS OF FOCUS

**Youth Development**  
Nurturing the potential of every child and teen

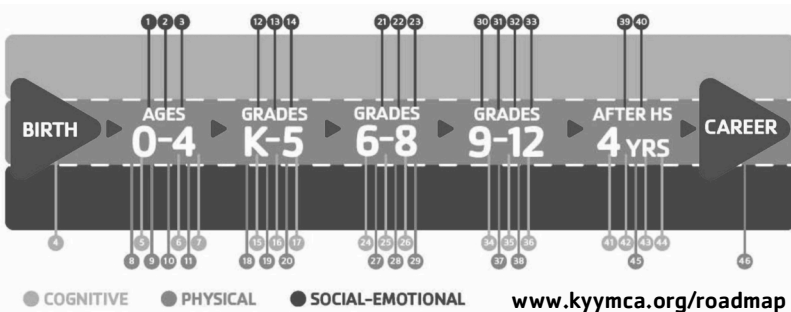

**Healthy Living**  
Improving the nation's health and well-being

**Social Responsibility**  
Giving back and providing support to our neighbors

## YOUTH DEVELOPMENT AT THE YMCA

Kentucky YMCA Youth Development is the **social-emotional, cognitive, and physical** process that all youth uniquely experience from birth to career. A successful development process fulfills children and teens' innate need to be loved, spiritually grounded, educated, competent, and healthy.

Positive youth development is supported by the intentional efforts of individuals, including parents, mentors, teachers, community members, peers, and others who help foster the skills needed for successful living through motivation, active engagement, enriching activities, and healthy relationships.

## DIMENSIONS OF WELL-BEING

At the Y, we support youth development by fostering nine dimensions of well-being: Character, Giving, Inspiration, Health, Achievement, Relationships, Belonging, Meaning, and Safety.

Youth Development at the Y emphasizes three of these dimensions when measuring the impact and effectiveness of our programs:

**Achievement**  
**Relationships**  
**Belonging**

## THE FIVE PILLARS

To help ensure the fidelity and quality of our YMCA teen programs, we measure and seek to maximize impact using the following pillars:

**Academics**  
**Positive Relationships**  
**Positive Identity**  
**Life Skills**  
**Civic Engagement** (Youth and Government\*)

\*Each YMCA teen program has a unique pillar of measurement. As a Youth and Government program, the Kentucky YMCA and our Student YMCA Chapters measure civic engagement.

**KENTUCKY YMCA YOUTH ASSOCIATION**  
**KENTUCKY YOUTH ASSEMBLY (KYA)**  
**CONFERENCE STUDENT CODE OF CONDUCT AND DRESS CODE**

The purpose of this Code of Conduct is to identify personal behavior that is consistent with the purpose and objectives of the Kentucky YMCA Youth Association. The items within the Code are designed to protect the welfare of the program for current participants and future generations. A participant's personal behavior reflects upon one's self, one's Student YMCA, and the Kentucky YMCA. Registration in any Kentucky YMCA conference program indicates personal acceptance of the Code of Conduct. Any student sent home for violation of this Code will be at the expense of parent or guardian.

**EXPECTATIONS OF PARTICIPANTS**

1. Each delegate shall conduct himself/herself in an orderly and responsible manner before, during, and after all functions of the Kentucky YMCA conference programs.
2. All participants share the responsibility for their actions equally when violations of the Code are witnessed. Those who choose to be present when a violation occurs and do not immediately act to remedy and report the violation shall, by their own choice, be considered participants in the violation. In relation to this Code, there are no "innocent bystanders."
3. No delegate shall leave a Kentucky YMCA function unless the approval of his/her advisor AND the director of the program is secured. The delegate must be picked up and returned by a parent or legal guardian who must take responsibility for the delegate in writing.
4. Each delegate is legally and financially liable for the removal, defacing, or willful damage to public or private property. Any act of vandalism, destruction of property, or misuse of a facility may be a crime and will be treated as a potential criminal violation.
5. Food (including gum and candy) and beverages other than water (including those sold by the hotel) are not permitted in any meeting sessions.
6. Cell phones, music players, or other wireless communications devices are not to be used during any meeting session.
7. The use of tobacco products, burning of incense, possession of alcoholic beverages, and the use of legal or illegal drugs not in accordance with a prescription is forbidden at any Kentucky YMCA function.
8. Youth delegates may not enter rooms other than those assigned by the Y-Staff or advisor.
9. Physical intimacy between participants of any gender is inappropriate at all times while at Kentucky YMCA Youth Association Programs and is prohibited.
10. All delegates shall be in and remain in their assigned rooms by scheduled curfew and doors shall remain closed until scheduled end of curfew.
11. Badges shall be worn ONLY by the individual whose name is on the badge. Badge switching or sharing is strictly prohibited. Participants will wear their assigned badges at all times when they are not in their sleeping rooms, and must be visible at all times. Badges are to be worn around the neck and are not to be defaced, decorated, or altered in any way. There may be a charge for replacement badges.
12. Unless there is a fire, participants will not pull the fire alarm. Pulling a fire alarm is a serious offense, and any participant who does so will be held financially and potentially criminally liable. Hotel alarms automatically summon the fire department and create a great inconvenience and fear for the hotel and other guests.
13. Use of personal vehicles by students during Kentucky YMCA conferences is strictly prohibited.
14. Weapons of any kind and items that could cause injury or damage to participants and/or property are strictly forbidden.

**VIOLATION OF EXPECTATIONS**

All violations of this code of conduct are to be brought to the attention of the Y-Staff. Participants found to be in violation of the above expectations will be subject to disciplinary actions at the discretion of advisors and the Y-Staff including but not limited to: calls to parents/guardians; incident report filed; participant sent home; school policies implemented. If state or federal law is broken, Y-Staff will notify parent/guardian and law enforcement and participant will be sent home. At all times the Y-Staff reserves the right to alter disciplinary actions at their discretion.

**ROOMING POLICY**

I understand that conference delegates are typically housed four (4) to each room and that in order to participate in this program; I must share a room and bed with at least one other student of the same sex from my delegation. I may be roomed with students of the same sex from another delegation, in which case I will not share a bed with a person from another delegation. I further understand that I may not room with anyone other than YMCA conference delegates

-- not an advisor, parents, or other relatives -- without expressed notarized\* parental consent (\*notarization only required if student rooms with adult other than parent/legal guardian), and permission of Executive Director of the Kentucky YMCA. I also understand that I may not room alone.

**REFUND POLICY**

I understand that all fees are non-refundable. In the case of extenuating circumstances, a portion of the payment may be refunded by action of the Executive Director based upon written request from the student or parent.

PARTICIPANT DRESS CODE

KYA is a professional development experience. While at KYA, students are expected to abide by the following dress code. Conference name badges are part of this dress code and must be worn for all conference functions. Anyone not in compliance with the dress code may be asked to change clothes. Advisors will be notified of any violations. Bill #	School	Topic	Notes for speeches and questions

## BE A BETTER DEBATER!!! READ THESE HELPFUL HINTS AND TIPS:

- **ALWAYS ADDRESS THE CHAIR!** “Harry Potter, Hogwarts Gryffindor, Sir/Madam Chair.”
- **TECHNICAL QUESTIONS**
  - READ the bill before you decide on your question. DON'T ask questions that are already in the bill. For example, “When will this bill go into effect?” and “How much will this bill cost?” are *usually* answered in the Body of the Bill.
  - Don't ask questions that begin with “WHY...?” Those are almost *always* debatable.
- **WHAT YOU MAY DO DURING PRO/CON DEBATE**
  - Each time you are recognized, you may do ONE or TWO of the following things:
    - Ask the sponsor(s) a *technical* question about the bill
    - Ask the sponsor(s) a *debatable* questions about the bill
    - Give a speech for or against the bill
    - Yield your remaining time to another delegate
  - If you would like to ASK A QUESTION (or a series of 2 questions), when you are recognized, say, **“Will the sponsor(s) yield to a question (or `series of questions`)?”**
  - If you would like to SPEAK OR YIELD YOUR TIME AFTER ASKING A QUESTION, you should also say, “And I reserve my right to speak (or `yield my time` ) afterward.”
  - If you would like to YIELD YOUR TIME AFTER SPEAKING, you should reserve your right to do so after addressing the chair.
    - EX: “Hermione Granger, Hogwarts, Sir Chair. I reserve my right to yield the remainder of my time to Delegate Malfoy from Hogwarts Slytherin.”

1 An act to make it illegal to test human products on animals.

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: Each year the U.S. spends \$1.4 billion dollars are used on animal testing. This is ridiculous  
6 amount of money to spend on animals considering less than 2% of human illnesses (1.16%) are ever  
7 seen in animals, But still we put animals in facilities that aren't even properly inspected.

8  
9 Section 2: This bill proposes that scientists use current technology that allows safe testing of  
10 products without the possibility of harming animals. The use of 3D-printed human cells that are way  
11 more accurate than animals anyway. 3D-printing can help researchers focus their efforts on  
12 compounds that actually work.

13  
14 Section 3: Researchers and their companies would simply convert their money they were previously  
15 using to purchase and maintain animals to acquire a 3D printer and the needed supplies. The average  
16 cost per study spent on animal testing is \$1800. 3D printers range from \$300-\$3000 so the cost  
17 would not be a huge barrier to companies.

18  
19 Section 4: The Food and Drug Administration could continue to monitor their current list of product  
20 testers and complete reports and enforce fines for those that are compliant and non-compliant. Due  
21 to research and training purposes this bill would go into effect on July 1, 2018, which would allow  
22 conversion time.

1 An act to restructure Kentucky's scholarship and financial aid programs funded by the KY State Lottery.  
2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4

5 Section 1: All proceeds from the Kentucky State Lottery will be used to provide all Kentucky high school  
6 students with a 3.0 cumulative weighted GPA free college tuition at Kentucky public universities and  
7 colleges. Students awarded free tuition must maintain 2.5 college GPA to remain eligible for the yearly  
8 tuition. This program will replace the current Kentucky Educational Excellence Scholarship (KEES)  
9 program.  
10

11 Section 2: Students attending private colleges or universities in Kentucky who qualify for the free state  
12 college tuition will be provided scholarship monies equal to the amount of the average state tuition  
13 rate to be used at the private Kentucky college or university of their choosing.  
14

15 Section 3: Remaining funds will be used to fund need-based scholarship programs already in existence,  
16 including the College Access Program (CAP) and the Kentucky Tuition Grant (KTG) program. These  
17 programs provide financial aid based solely on need and can be awarded to both individuals receiving  
18 free tuition and those not eligible for the free tuition program.  
19

20 Section 4: All Kentucky Lottery proceeds will be used for these scholarship and financial aid programs.  
21 This replaces the current method of using projected lottery proceeds for these educational programs  
22 and then diverting excess funds to the Kentucky General Assembly.  
23

24 Section 5: The Kentucky General Assembly cannot borrow or raid funds raised by the Kentucky State  
25 Lottery to pay for other programs or budgeting shortfalls.  
26

27 Section 6: This law will go into effect August 1, 2017 for the graduating class of 2021 ( students  
28 entering 9th grade for the first time in August 2017). Students already in high school will continue to  
29 earn KEES money. As this program has different GPA guidelines, it would be unfair to change their  
30 scholarship monies after they have earned set amounts.

Section 1: One in every five home in America speak a language other than English. We can improve our communication with other countries and industries by exposing all of Kentucky students to various languages.

Section 2: This law will increase communication and make Kentucky eligible for business and industry from various countries around the world. Only 4.6% of the people in the world speak English, so this will open many doors for the citizens of Kentucky.

Section 3: Families would choose a language path for their child in Kindergarten and students would continue lessons throughout their schooling.

Section 4: Languages would include Mandarin, Spanish, French, Japanese, and sign language.

Section 5: Mandating this languages would require some funding from the state for training, teachers and/or materials; those amounts would vary based on enrollment. However, over time, money would be generated in the state from growing employment.

1                   An act to create a statewide animal cruelty registry in Kentucky.

2  
3                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5                   Section 1: Currently in Kentucky there is no way to know if an individual harms an animal in any way.  
6                   In order to prevent future abuse of animals, we need a way to publicly track animal abuse statewide.

7  
8                   Section 2: To create the statewide animal cruelty registry, there will be a new section added to the sex  
9                   offender registry containing those individuals who abuse any animal (domesticated or not). The registry  
10                  would be accessible to the public.

11  
12                  Section 3: Those committing the following misdemeanors will be added to the registry: cruelty towards  
13                  any animal (i.e. beating or shooting), neglecting any animal, abandonment of any animal, or sexual  
14                  assault of any animal. Currently, the only animal cruelty offense that is classified as a felony is dog  
15                  fighting. (KRS 525.125) Those committing this felony will also be added to the registry.

16  
17                  Section 4: The punishments for a misdemeanor are: one year in jail, a \$1000 fine, and up to six hours  
18                  of community service per week for one month. If a felony is committed, the punishments are: three  
19                  years imprisonment, \$5000 fine, and up to six hours of community service every week for six months.  
20                  In addition, any animal on the property or in the possession of the abuser will be confiscated and taken  
21                  to the local humane society. Animals are not permitted to be on the abuser's property or in the  
22                  possession of the abuser after the crime is committed, until their name is removed from the registry.  
23                  Random checks will be performed by local police to ensure the compliance of the convicted person(s).

24  
25                  Section 5: The contents of the registry will include: the offender's full name, date of birth, address,  
26                  offense, photo, conviction date, and if/when the person will be removed from the registry. For a felony,  
27                  the abuser will have a permanent record on the registry. For a misdemeanor, the abuser will stay on  
28                  the registry for four years, as long as they are compliant. Noncompliance will also be recorded on the  
29                  registry and will result in further jail time, a permanent record on the registry, and increased fines.

30  
31                  Section 6: The cost is estimated at around \$500 for the added section on the Kentucky sex offender  
32                  registry, and will be paid for using fines collected in animal cruelty cases.

33  
34                  Section 7: The circuit clerk for each county will report any animal cruelty convictions to the Records  
35                  Branch of the Kentucky State Police, who will be responsible for compiling the state registry.

36  
37                  Section 8: This bill will go into effect on July 1, 2017.

5   Section 1: This bill will require new purchases of air pellet guns be limited to individuals who are 18 or  
6   older. If the air pellet gun is given to a minor for use or as a gift, the adult guardian of said minor  
7   assumes the legal responsibility of damages or injuries caused by the use of that air pellet gun.  
8

9   Section 2: This bill would not cost the government any money.

10

11   Section 3: The Centers for Disease Control (CDC) reported that 30,000 air pistol injuries occurred in  
12   the United States last year. This law will require adults to assume legal responsibility for issues caused  
13   by the air pellet guns they have purchased which will motivate those adults to ensure minor who use  
14   those air pellet guns are trained in proper safety and use of the gun. More importantly, this law will  
15   decrease the chances of a child getting killed since the air pellet gun is a child's first gun, and  
16   irresponsible teenagers can kill children with this gun if not properly instructed on safety procedures.  
17

18   Section 4: This bill will go into effective upon its passage.

1 An act to allow the state of Kentucky to participate in a tax-free weekend the first week of August

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: This bill will affect all consumers who are purchasing clothes, shoes, school supplies, and  
6 school related technology.

7

8 Section 2: The state of Kentucky is losing thousands of dollars each summer because parents and  
9 consumers are traveling to four of our border states Tennessee, Missouri, Virginia, and Ohio already  
10 participate in tax free weekends. Tax free weekend allows parents and teachers to shop for school  
11 clothes, school supplies, shoes, and computers tax-free. There are 17 states participate nationwide.  
12 Kentucky could have increased revenue in our towns, especially towns that border other states like  
13 Louisville, Covington, and Paducah that would help to boost the economy instead of the money going  
14 out of state this would also increase tourism as well because people would travel to Kentucky to shop.  
15 Another benefit is to help alleviate the cost to parents you can't afford clothes, shoes, school supplies,  
16 etc. for their child.

17

18 Section 3: This bill will take place in all retail stores in Kentucky not including online purchases.

19

20 Section 4: This bill come active July 1, 2017 so that parents can shop tax-free for the 2017 – 2018  
21 school year and will continue annually every year after.

1 An act to provide for armed security officers in schools, known as "Safer Schools Act"

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: Purpose - Recently, up to 85% of public schools reported that at least one or more violent  
6 incidents took place. A Serving school employees shows that nearly 70% of those polled do not feel  
7 their schools are safe. To respond to these salient concerns, this bill would provide an armed security  
8 officer in every school and help give schools the protection they need. Besides making schools safe  
9 from shootings, these officers could assist with bullying issues, drug prevention, and other acts  
10 concerning both student and employee safety, directly on the school premises and also in the  
11 surrounding areas.

12  
13 Section 2: Provisions - Be it enacted by the Kentucky Gen. assembly in recognition of our commitment  
14 to providing a safe environment for students and staff, that all schools in the state may choose to hire  
15 one or more trained and arm security officers.

16  
17 Section 3: Funding and Implementation:

- 18 • The funding for this project would come from a grant from the Community Oriented Policing  
19 Services (COPS) branch of the US Department of Justice.
- 20 • Schools may request additional funding based on special circumstances, such as a high number  
21 of students or a more populated area from the Kentucky Council for Safe Schools
- 22 • School districts may choose to decline the Armed Security Officer Funding, but only for good  
23 cause.
- 24 • Schools may also choose to employ one or more Armed Volunteer Security Officers. These  
25 Volunteer Officers must undergo training equal to that of the paid Security Officers, and must  
26 also follow any and all laws relating to carrying a concealed weapon on school grounds.
- 27 • Schools must use the \$100,000 for at least one armed security officer. Any remaining funds  
28 after the Officer is hired must be used for security purposes such as cameras, alarm systems,  
29 safe room(s), and/or door locks. Upon request by state, each school district must provide an  
30 accounting of how the annual funds were used. Any school system that is found to have  
31 improperly use these funds will lose access to this program funding for the next calendar year.

32  
33 Section 4: This bill will become active on July 1, 2017.

Section 1: The minimum age of foster parents is 21, and the minimum number of training hours a person has to complete to foster a child is 30 hours. This is an issue because at the age of 21, most adults are still attending a university or vocational school. Also, the foster parent only has to complete 30 hours of training before they can foster a child. Our bill proposes that the foster parent will have to participate in 48 hours of training total. The foster parent will participate in 16 hours of allergy training, 16 hours of emergency medical training, 8 hours of finance classes, and 8 hours of early childhood education training.

Section 2: There are more than 7,000 children in foster care every year. Most of these children have lived in a house where they or someone they have known have been abused or neglected. Over 50% of these children are 12 years of age or older, and they have been living in a home where they have known nothing but abuse their whole childhood. When these children are put into a foster care system, they are frightened because they are taken away from their families. When they enter the foster system, they are matched with one or two parents. The child and adoption agency do not want the child to go back into a home where they are abused and neglected. We will prevent this from happening by contacting Cabinet for Health and Family Services, and discussing new training and standards for the foster care system and the foster parents.

Section 3: This will affect foster parents who plan to foster a child because they will have to go through more training hours, therefore, creating a safer environment for foster children.

Section 4: This will affect foster parents and children in the state of Kentucky.

Section 5: This bill will go into effect in the state of Kentucky by the year of 2018.

1 An act to establish uniform gifted education across the Commonwealth of Kentucky

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: This bill will require the Commonwealth of Kentucky to provide every student identified for  
6 Gifted Education services with the proper resources to meet their educational needs.

7

8 Section 2: Currently the law for gifted and talented education, 704KAR:285, states that each district  
9 provides GTE for students who are identified according to district policies. This bill is designed to more  
10 clearly identify and regulate the process to ensure all GT students are given proper education  
11 according to their unique needs similar to federal laws, IDEA (individuals with disabilities education act)  
12 because all students outside regular education must have an extended education plan, whether it's an  
13 IEP or GSSP.

14

15 Section 3: This bill will ensure the following: provisions will be met across the commonwealth at a  
16 minimum standard, but not restricted to: 1. every school must provide all categories of GTE. 2. The  
17 GSSP will be treated with the equality of an IEP (individual education plan).

18

19 Section 4: If this law is not carried out the district GT coordinator will be suspended, and face possible  
20 fines and or termination. That would also cause possible state funding loss to the school district, also  
21 an audit of the funds, and program.

22

23 Section 5: This bill will go into effect January 1, 2018.

1 An act to require Kentucky insurance providers to include sinkhole coverage with homeowner's  
2 insurance  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
5

6 Section 1: Every year many Kentuckians suffer home property damage due to sinkholes. In addition,  
7 sinkhole insurers in Kentucky charge a substantial extra amount of money if you want sinkhole  
8 coverage and many insurance companies do not offer it at all. As a result, you are left to pay for it  
9 yourself. This bill will require all Kentucky insurers to provide sinkhole insurance for their customers.  
10

11 Section 2: Under our bill, the Kentucky Department of Insurance will be responsible for making sure all  
12 insurance companies add sinkhole coverage to their homeowner's insurance portfolio.  
13

14 Section 3: This bill will not cost the state of Kentucky any money. It will just require all of the insurance  
15 companies in Kentucky to use their existing surplus and premiums they have collected to pay for any  
16 sinkhole issues that their customers experience.  
17

18 Section 4: If any insurance company fails to offer sinkhole coverage with their home owners insurance,  
19 they will receive a written warning from the Kentucky Department of Insurance. If they still do not offer  
20 sinkhole coverage after a thirty day notice, the company will be fined \$10,000 per month for up to 6  
21 months and banned from operating their company in the state of Kentucky if not in compliance within  
22 6 months.  
23

24 Section 5: This bill will go into effect on June 1st, 2017.

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: In order to serve the public health, safety, and general welfare of our state citizens, it is  
6 declared the purpose of this bill to prohibit smoking in all buildings open to the public and other  
7 establishments where employees work on the premises, as well as within eight feet of an entrance to  
8 these buildings.

9

11 windows and doors are open, which is closed in overhead by a roof or other covering, permanent or  
12 temporary, and has 80% or more of its perimeter closed in by walls or other materials, permanent or  
13 temporary. This regulation applies to all buildings as defined in this bill. This includes, but is not limited  
14 to, restaurants, bars, offices, health care facilities, sports arenas, bowling alleys, bingo halls, hotels and  
15 motels, retail outlets, entertainment centers, salons, repair shops, service centers, educational sites,  
16 etc. No person shall smoke within any building or establishment that is open to the public, used to host  
17 or hold a private event, or employs one or more persons that work on the premises.

18  
19 Section 3: Smoking will be defined as a lit tobacco product- cigarette, cigar, pipe, as well as electronic  
20 cigarettes.

21  
22 Section 4: To report violations, citizens may contact their local governments, health departments, and  
23 local police. The already established local health departments, state health departments, or police  
24 entities can fine businesses and individuals during routine visits, surprise visits, or prompted visits  
25 from the result of a violation report. Citations can be issued to the building owner or operator, building  
26 manager, or individuals found in violation of this bill.

27  
28 Section 5: A penalty of \$50 will be charged to the business manager or owner, as well as the individual

34 year than the next 8 most-common cancers combined. Kentucky leads the nation in lung cancer  
35 incidents and deaths. Lung cancer has been directly connected to smoking.

36  
37 Section 7: This bill will take effect 90 days after adjournment of the Commonwealth's legislature, most  
38 likely around July 15, 2017.

1                   An act to require Kentucky drivers over the age of 60 to pass a vision and skills test  
2  
3                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5 Section 1:As our physical mobility diminishes with age, our vision reveals an age-related weakness in  
6 performance--particularly as we exceed our 60's and beyond. There is not a federal mandate  
7 concerning the safety of older drivers. This bill would require that all drivers residing in the state of  
8 Kentucky over the age of 60, pass a vision and a driving skills test before renewing their driver's  
9 license. The purpose of this bill is to reduce the amount of fatalities and injuries from accidents due to  
10 impaired vision, lack of reflexes, and possible memory loss.  
11  
12 Section 2: The Department of Motor Vehicles (DMV) will notify drivers that they will be required to  
13 pass both exams before renewing their driver's license. Once the driver passes the vision test, then a  
14 driving skills test will be administered. After passing the driving skills test, the driver will be eligible to  
15 renew their driver's license.  
16  
17 Section 3: If the driver fails the vision test, they will be obliged to hand over their driver's license. If the  
18 driver fails to comply, the DMV will have the right to suspend the driver's license. Drivers who pass the  
19 vision test, but fail the driving skills test, will be eligible to retake the driving skills test after a 30-day  
20 grace period.  
21  
22 Section 4: Upon passage, this bill will go into effect on May 1, 2017.

Section 1: Distracted driving is defined as not having your eyes on the road or being unaware of your surroundings. In Kentucky alone 53,500 distracted driving accidents were recorded just in 2014. About 1 in 4,100 Kentucky drivers were involved in a fatal accident involving distracted driving. 1 in 17 licensed drivers will end up in a collision due to distracted driving. When this bill gets passed hundreds of Kentuckians will have their lives saved.

Section 2: Currently, in the state of Kentucky, the fine for distracted driving is 25 dollars for the first violation and 50 dollars for the second violation. If you have a third offense then your driver's license is revoked for 180 days. We will raise the fine to 225 dollars for the first offense and then 450 dollars for the second offense, and for your third offence your license will be revoked for one year.

Section 3: This bill would be enforced by raising the fine so that people will understand that this is a serious problem. Raising the fine will not only decrease the amount of accidents happening, it will help the government receive more money. This would not cost the citizens any money unless they violate this law.

Section 4: This bill will go into effect January 2017.

1 An act to allocate the unclaimed lottery money from KEES to drug tests for teachers that are  
2 coaches/club sponsors and students.  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
5

6 Section I: KEES is a Kentucky scholarship fund called Kentucky Educational Excellence Scholarship that  
7 already uses the unclaimed lottery money. Since 2003, nearly 34 million dollars have gone to KEES.  
8 Which helps provide extra college money for students who score a 2.5 GPA or higher each year they  
9 attend a certified Kentucky high school.

10

11 Section II: This bill will help districts that already have drug tests to expand that to teachers as well as  
12 students participating in extracurricular activities. But only teachers who are club sponsors and/or  
13 coaches. Another part to this bill is for districts that wish to participate to apply for money to use  
14 towards drug testing. They would start with expanding it to all students then expand to teachers as  
15 the years pass. Also, the left over money will go to raising awareness in schools about drugs, and the  
16 war on drugs, as well as the effects of both. It will pay for new teachers to get the word out about  
17 drugs and will discourage drug use altogether.

18

19 Section III: This will affect all teachers that are coaches/club sponsors in Kentucky as well as student  
20 athletes.

21

22 Section IV: We will get our funding from the unclaimed lottery money. On average 8-10 million dollars a  
23 year go unclaimed. The average cost of a drug test is \$42 per person tested. The drug test will happen  
24 whenever the school/district wants at random.

25

26 Section V: This bill will go into effect immediately after it is passed. This bill will only be for  
27 schools/district that wish to participate.

Section 1: Air pollution is the most dangerous, and permanent type of pollution in Kentucky. Air pollution is caused by factory, cigarette, and chimney smoke. Air pollution can cause cancer, immune system failure, and damage to the environment. An average of about 2,000 people die each year in Kentucky because of air pollution, and about 2.4 million people are affected with a disease from air pollution yearly, therefore making air pollution one of the top five most important issues in Kentucky.

Section 2: Our solution to help prevent air pollution in Kentucky, is to require all factories with at least an acre of left over land with supportive soil, to plant at least twenty-five plants on their property, as long as they aren't interfering with the traffic from the roads surrounding them. Of the twenty-five plants, ten of them must be trees, ten of them must be bushes, and the last five are optional, as long as they are effective to the air in a good way. Since trees and other plants give off oxygen, they will be very supportive to the air in a good way. This bill will also require factories to update the air scrubbers inside their machines, making them more air efficient. To fund these two projects in factories we are proposing a 1.5% tax increase on cigarettes.

Section 3: The country of France has put a bill into effect that is very similar to this one and their air pollution problems have decreased tremendously. Because France held high expectations for their air scrubbers, they aren't affected by air pollution nearly as much as we are. About one hundred years ago, air pollution in Kentucky was almost 60 times worse than it is now, because bills, not quite like this one, have been put in place. Our air pollution problems have gone down quite a bit, but not a lot, which is why the air scrubbers will have high expectations. Our bill does propose a similar idea to France, but we have a different way of creating these solutions.

Section 4: When passed this bill will be immediately enacted, the tax raising will begin within a week, and the factories will receive the seeds and money in 2018, therefor giving the government enough time to collect money. The air scrubbers will need to be updated within a month after the bill is passed. The only updates needed in this time period, is the standards for the air scrubbers. This means that the air scrubbers will need to have standards that make them more efficient and more effective. The updates requiring maintenance to the air scrubbers will have to be done by 2018 as well as the seeds because it will cost a lot of money to renovate all the air scrubbers. The renovations will only cost about 20 dollars per air scrubber, and there are about 100-150 air scrubbers in each factory depending on its size. There are also only about 100-140 factories in Kentucky with air scrubbers in it. Not many bills have been put into place that tried to reduce Kentucky air pollution, but with this one, we should have even more success than France.

1 An act to Eliminate Food Waste

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: Whereas, Kentucky is the fourth hungriest state in America, with 44.8% of households having one  
6 person with a steady income but lack the nutrients they need.

7  
8 Section 2: Whereas, about 20% of people in Kentucky face the problem of food instability; not knowing where  
9 their next meal will come from.

10  
11 Section 3: Whereas, 133 Billion pounds of uneaten food each year is thrown away.

12

- 27 • 4001 lbs and above of food donated = \$5000 tax credit

28  
29 Section 8: Therefore, this tax credit will be for the years 2017 - 2020. For the years 2020 - 2030 the tax  
30 credit will be doubled based on the chart above to be in conjunction with US Department of Agriculture’s food  
31 waste reduction goals.

6 Section 1: The current law in the Commonwealth of Kentucky requires everyone under the age of 21 to  
7 wear a helmet while riding a motorcycle. The issue with this statute is that it fails to cover  
8 motorcyclists over the age of 21, and should be expanded to encompass motorists of all ages. In  
9 1998, there was a law stating that everyone has to wear a helmet when riding a motorcycle in  
10 Kentucky. However, that law got repealed and the motorcycle fatalities increased by nearly 50%. In  
11 2013, the state of Kentucky had 1,253 motorcycle injuries, and 79 fatalities. Of those injured, 651  
12 were not wearing a helmet and of those killed, 53 were not wearing a helmet.

13  
14 Section 2: It would have little to no impact on law enforcement staffing levels. Considering that we  
15 already have law enforcement patrolling public streets enforcing other laws regarding motor vehicles  
16

17 Section 3: The consequences of breaking this law should be strict, considering the choice to disobey  
18 this law is life endangering. The first offense will be a \$250 fine. If the rider is caught a second time,  
19 the fine will increase to \$500. Should the motorcyclist decide to violate the law for a third time, their  
20 license will be suspended for a duration of six months. After the third offense their license will be  
21 revoked and they will have to restart the process of getting their license.  
22

23 Section 4: This law will go into effect 6 months after the bill is passed. This time frame will ensure  
24 motorcycle owners have adequate time to purchase a helmet, and learn the specific requirements and  
25 rules of the new law.

1                   An act to require rehab for drug addicts after their jail sentence is complete  
2  
3                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5 Section 1: Too many people who are former drug addicts are going back to jail after being released  
6 from prison. About 73% of former addicts, that do not participate in or complete rehabilitation, are  
7 sent back to jail. Only 27% of former addicts, who complete training, go on to live a normal, drug-free  
8 life. This bill will enforce rehabilitation for people sent to prison for drug addiction.  
9  
10 Section 2: Many drug addicts are released from jail and again become addicted to drugs. We hope to  
11 prevent this by requiring rehab after their jail sentence has been completed. This bill will require people  
12 who have done drugs before to stop from getting back on drugs. We will prevent this from happening  
13 by forcing those drug addicts to go to a rehabilitation center. These rehab facilities will be added onto  
14 jails, or built next to them. The money being used to build and supply the rehabilitation center will be  
15 paid for by the government, as well as a fee paid by the jailers soon going into the rehab facility. Those  
16 who have a short sentence will start rehab after their sentence, but if they have been given a long term  
17 sentence then they will most likely start rehab during the sentence.  
18  
19 Section 3: The drug addicts will pay a fine of \$300 and attend rehab for the first drug-related charge.  
20 For the second offense, drug addicts will pay a fine of \$600, will attend rehab, and will have to do one  
21 hour of community service three days a week, until their second sentence is over.  
22 For three or more offenses, drug addicts will pay a fine of \$1,000, have a longer stay in rehabilitation,  
23 and will continue the community service. Fines will be used to build more rehab centers for those who  
24 are addicted to drugs.  
25  
26 Section 4: This bill will go into effect on December 12, 2017.

An act to enforce the use of red light and traffic cameras

**Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

Section 1: This bill will enforce the use of traffic cameras and red light cameras throughout Kentucky. We will use a reliable retailer called Ver-Mac to purchase these cameras. We will obtain movable trailer mounted cameras and speed sensors. The Kentucky Department of Transportation will be charged with purchasing these cameras and assisting in enforcing this bill.

Section 2: This bill will help to reduce accidents and fatalities on the road.

Section 3: These cameras will be tailer mounted complete with speed sensors. These cameras will be installed on all major highways and frequently used roads. The red light cameras will be installed in the major cities and most used intersections or traffic light areas. These cameras will help to save many lives each year.

Section 4: A police officer fines a driver based on their speed with the maximum fine of \$550. This bill would raise the price of a fine if a driver was caught speeding by camera with the maximum fine of \$600. The fine for running a red light or other traffic violations will have a maximum fine of \$400.

Section 1: It's an unfortunate truth that once a law has passed it is hardly ever removed from the books. These laws are outdated and unimportant such as, "In Kentucky every citizen is required to take a shower once a year" and "People can't legally trade horses after dark." These laws do nothing except get people arrested for foolish or irrelevant reasons. We think that these laws should be removed along with others like them. Some of these, seem they are unintentionally being directed regarding vagrant people. It's too often that we are too focused on making new laws instead of removing obsolete ones.

Section 2: These, for the most part, are absurd laws that cause undesired distress. The aged laws have a certain effect on the homeless. Time must be spent to aid the less fortunate, and not punishing them for their own lack of resources. It would not consume as much time as thought to go over this process. It rarely occurs that elected officials go back on past laws. The laws that are still working as intended can quickly be renewed and approved.

Section 3: Our solution is to apply a Sunset Revision, which would allow pointless and ridiculous laws to be withdrawn. Therefore, setting this every decade, the legislature will revisit the laws that were previously passed. Some may believe revisiting every law would be wasteful and costly to our legislature. We can argue that it would indeed be useful. In Texas, a similar act was presented and they noted "Every dollar spent on the Sunset process has earned the state approximately \$25 in return." This is not the only example, a similar change was made in Florida when they required "Regular Relief Days", and a 1990s council began reviewing regulations including warehouses to update their fire codes and technology. This simple transition improved all warehouses by \$150,000 or more.

Section 4: All in all, by implying this process we can ensure that all irrelevant, and aged acts can be revisited and established to be still necessary and active.

1                   An act to ban smoking tobacco products with minors in an automobile.

2

3                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: This law will make smoking any tobacco products in an automobile with a minor in it illegal.  
6 It is the goal of this law to protect minors by reducing the amount of secondhand smoke they are  
7 exposed to.

8

9 Section 2: Every year in the US secondhand smoke causes about 34,000 deaths from heart disease and  
10 7,300 deaths from lung cancer. 2.5 million non-smokers die from secondhand smoke. Secondhand  
11 smoke causes 30 times as many lung cancer deaths as all regulated air pollutions combined. Just 5  
12 minutes of secondhand smoke can hurt you, increasing your risk of asthma or heart attacks. When an  
13 adult smokes with children around, the minor can inhale the equivalent of 102 packs of cigarettes by  
14 age 5. It is a major health concern to continue to allow adults to expose minors to secondhand smoke.

15

16 Section 3: This bill will not require any additional funding and will be enforced when observed at regular  
17 traffic stops.

18

19 Section 4: This bill would go into effect on July 1, 2017.

1 An act to mandate installation of traffic light cameras in heavily congested areas of Kentucky in an  
2 effort to reduce serious accidents.  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5  
6 Section 1: This bill will target heavily congested areas and traveled state roadways in the  
7 Commonwealth of Kentucky in an attempt to address the increasing number of drivers running red  
8 lights, thus causing serious and/or fatal accidents.  
9

10 Section 2: An engineering study, costing approximately \$110,000, will be conducted to identify  
11 existing traffic lights that are already in place but need additional safety precautions. The study will  
12 prioritize which intersections need addressed immediately, and which can be addressed within the  
13 allotted construction/installation time frame of 18 months. The study will be conducted by the  
14 Kentucky Transportation Department.  
15

16 Section 3: After the engineering study, a period of 18 months will be set aside for the installation of  
17 the additional red-light cameras. The total cost of each camera is approximately \$60,000. This includes  
18 the equipment, installation, maintenance, etc. Because these cameras are being placed on existing  
19 traffic lights, the cost will be an efficient way of reducing serious traffic accidents caused by reckless  
20 drivers.  
21

22 Section 4: The funding for the engineering study and traffic light cameras will come from the Kentucky  
23 State Government. Drivers caught running red lights will be sent a fine, which is currently \$325. These  
24 fines will supplement the cost of installation and maintenance of traffic cameras. This new law will be  
25 enforced by the Kentucky Transportation Department, Kentucky State Police, and local circuit courts.  
26

27 Section 5: The engineering study will start on January 1,2017 and will last for a total of 6 months.  
28 After the conclusion of the study, the bill will go into full effect July 1,2017.

Section 1: It's an unfortunate truth that once a law has passed it is hardly ever removed from the books. These laws are outdated and unimportant such as, "In Kentucky every citizen is required to take a shower once a year" and "People can't legally trade horses after dark." These laws do nothing except get people arrested for foolish or irrelevant reasons. We think that these laws should be removed along with others like them. Some of these, seem they are unintentionally being directed regarding vagrant people. It's too often that we are too focused on making new laws instead of removing obsolete ones.

Section 2: These, for the most part, are absurd laws that cause undesired distress. The aged laws have a certain effect on the homeless. Time must be spent to aid the less fortunate, and not punishing them for their own lack of resources. It would not consume as much time as thought to go over this process. It rarely occurs that elected officials go back on past laws. The laws that are still working as intended can quickly be renewed and approved.

Section 3: Our solution is to apply a Sunset Revision, which would allow pointless and ridiculous laws to be withdrawn. Therefore, setting this every decade, the legislature will revisit the laws that were previously passed. Some may believe revisiting every law would be wasteful and costly to our legislature. We can argue that it would indeed be useful. In Texas, a similar act was presented and they noted "Every dollar spent on the Sunset process has earned the state approximately \$25 in return." This is not the only example, a similar change was made in Florida when they required "Regular Relief Days", and a 1990s council began reviewing regulations including warehouses to update their fire codes and technology. This simple transition improved all warehouses by \$150,000 or more.

Section 4: All in all, by implying this process we can ensure that all irrelevant, and aged acts can be revisited and established to be still necessary and active.

1 An act to create a Kentucky Animal Abuse Registry identifying all persons convicted of animal abuse.

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: The Kentucky State Police Department will be the main body in charge of creating and  
6 maintaining the Kentucky Animal Abuse Registry (KAAR) that lists all persons convicted of animal abuse  
7 residing within the state. The registry will be accessible to the public online via the KSP website.

8

9 Section 2: For the first offense, the convicted abuser will be listed on the registry for five years. On  
10 the second offense, the convicted abuser will be listed on the registry for ten years. On the third  
11 offense, the convicted abuser will be listed on the registry for life. All persons convicted of animal  
12 abuse will not be permitted to handle or own any animals (on the property where he or she resides)  
13 while on the Kentucky Animal Abuse Registry.

14

15 Section 3: The convicted abuser will have to register within 30 days after conviction. Failure to do so  
16 will result in a) a \$750.00 fine, b) an arrest warrant, and c) the abuser returning to court. A judge will  
17 decide to either allow the animal abuser 30 more days to be compliant or jail the non-compliant animal  
18 abuser.

19

20 Section 4: The Kentucky Animal Abuse Registry (KAAR) will contain the following information of the  
21 convicted animal abuser:

22

- 23 • Full legal name

- 26 • Conviction date
- 27 • Expiration date from the registry

1 An act to require all cities and counties in Kentucky to offer a form of recycling, by having a mandatory  
2 contract with their contracted waste removal company.  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5  
6 Section 1: The reason you should consider our act is because it will make our communities and cities  
7 more clean and productive. Supplying counties with a form of recycling, not only will keep our  
8 communities clean, but also our state as a whole. Clean communities will better improve our state  
9 image.

10  
11 Section 2: The second reason you should consider our act is because it helps the environment. One way  
12 recycling helps the environment is by reducing the death of animals. Secondly, recycling helps control  
13 the pollution of our water systems. This could also help our current situation with coal by supplying a  
14 middle ground between economics and the environment.

15  
16 Section 3: The third reason you should consider our proposal to offer a form of recycling is because it  
17 will help our future generations. This act could help reduce pollution, which will be a negative issue in  
18 the future. If we take the steps to help control pollution today, it will benefit our state and  
19 communities to be healthier in both the present and the future.

20  
21 Section 4: If a city or county fails to comply with the bill mentioned above, they will be fined \$10,000  
22 with a continual fine each year of \$15,000.

23  
24 Section 5: This bill will take effect on January 1, 2018.

1 An act to abolish the Kentucky Performance Rating for Educational Progress test and replace it with a  
2 school regulated end of year assessment.  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5

6 Section 1: This bill abolishes the Kentucky Performance Rating for Educational Progress test and  
7 replaces it with a standard benchmark test.  
8

9 Section 2: This benchmark test will be created by the schools based on their school's needs every  
10 semester.  
11

12 Section 3: The state will finish creating common core standards for every content area so the entire  
13 state continues to follow the pattern of assessing the same test over the course of a year. However,  
14 this test will be given at three different intervals: the beginning of the school year, after Christmas  
15 break, and in May before the ending of school term.  
16

17 Section 4: This bill will also enforce a minimum goal of 10% growth in every student per test.  
18

19 Section 5: Every year the students will test over math, reading, English/writing, science, and social  
20 studies.  
21

22 Section 6: This test will take two days opposed to the current one full week.  
23

24 Section 7: This bill will take effect one year after the last core standards are completed. As of now, the  
25 wait is for social studies.  
26

27 Section 8: There will be no additional cost for this assessment other than the initial cost of the  
28 Kentucky Department of Education each time a new test is distributed, which is already in the budget.

1                                    An act to eliminate make-up snow days for Kentucky Schools

2  
3                                    **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5    Section 1: Online programs offer opportunities for students to learn during inclement weather, instead

14 Section 2: The nursing homes will be responsible for paying for the cameras and installing them in each  
15 room but only turning them on if requested to do so. The average price for a security system, 16  
16 cameras and a monitor included, is \$1500.  
17

18 Section 3: If the nursing home does not offer the use of a camera to the legal guardian or next of kin,  
19 the punishment of the employee at fault will be decided by the manager of the nursing home, and the  
20 nursing home will be fined \$500. If the inappropriate behavior continues the nursing home will be fined  
21 \$1000, and as long as the behavior continues the fine will double.

1           An act to enforce term limits to the legislative office holders of the Commonwealth of Kentucky  
2  
3                           **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5   Section 1: Currently in the Commonwealth, a Kentucky Legislator can serve as long as they are elected.  
6   This allows for career politicians.  
7  
8   Section 2: Our proposal is to impose a limit on the length of time that legislators can be in office. Such  
9   office holders will be able to serve the maximum of four, two year terms– a total of eight years in  
10   office.  
11  
12   Section 3: If any legislators are currently over the term limit, their removal will be done over a period of  
13   time, rather than all at once, based on when they were elected. The next election shall omit all of the  
14   representatives that were from before the year 1995. The following election will remove all of the  
15   representatives from 1995 – 2000. Their eviction will continue in this sequence up until current times.  
16  
17   Section 4: This bill will reinforced and observed by the Kentucky State Board of Elections.  
18  
19   Section 5: This bill will require no additional funding from Kentucky tax payers or the commonwealth of  
20   Kentucky; if an elector who has reach their tournament attempts to be elected again, their campaign  
21   will be shut down by the Kentucky State Board of elections.  
22  
23   Section 6: This bill will go into effect in the next Kentucky Legislative General Assembly Election.

1 An act to establish a Managing Finances Course in the High School curriculum

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: 93% of people in Kentucky do not know how to properly manage their finances. We want to  
6 prevent our future generation for making financial mistakes by establishing a managing finances course  
7 in the high school curriculum.

8  
9 Section 2: We want to prevent financial mistakes in our future generations to when debt for the  
10 government could be affected.

11  
12 Section 3: Our future generation making possible financial mistakes could leave them into hundreds of  
13 thousands of dollars in debt. Similarly, the average household holds \$135,000 in debt.

14  
15 Section 4: 86% of teens indicated they would rather learn about money management class and making  
16 financial mistakes in the real world. Establishing a managing finances class will provide Kentucky team  
17 the sense of basic financial fundamentals that will teach them how to properly manage their finances.

18  
19 Section 5: This bill will be funded by the Kentucky Federal School System.

20  
21 Section 6: This bill will go into effect in August 2017.

1 An act to enforce the labeling of products that have been influenced by pesticides and herbicides.  
2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5 Section 1: This is necessary because it provides vital information to the consumers of produce as to  
6 what chemicals have been used on said products. Over consumption of some of these chemicals can  
7 cause harmful side effects such as nausea, uncontrolled muscles, mental deterioration, respiratory  
8 issues, and many more unpleasant situations. Pesticide poisoning kills 20-40 people in the U.S each  
9 year, and with this plan, we hope to decrease that number. T Currently, there is no law requiring  
10 labeling of foods that have been grown with the aid of pesticides and herbicides. Even though many  
11 pesticides and herbicides are not deadly to the vast majority of people, this will give Kentuckians more  
12 information on what they are consuming.  
13  
14 Section 2: This will be enforced by the Kentucky Cabinet for Health and Family Services. There will be a  
15 maximum fine of \$10,000 (the federal limit). This comes from the Fair Packaging and Labeling Act  
16 which penalizes those who don't label or package products in a correct or legal way. The federal Fair  
17 Packaging and Labeling Act prevents fines of over \$10,000 when dealing with food and health related  
18 items being mislabeled. This is to be used as a model for penalties.  
19  
20 Section 3: This will cost approximately .03 to .27 cents per sticker with a 1 inch diameter (depending  
21 on the sticker retailer). Seeing as the stickers are very inexpensive, the money needed will come from  
22 the companies responsible for selling and labeling the products.  
23  
24 Section 4: This will be put into action within a year, or December 2017.

1                                   An act to redistribute education funds toward vocational training.

2  
3                                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: Vocational schools, sometimes known as trade schools, is a post secondary education  
6 institution designed to provide education or skills that are required to perform particular jobs or tasks.  
7 Such education and schooling includes apprenticeship programs and manufacturing programs for those  
8 seeking to be welders, machinists, electricians, millwrights, and pipefitters. "The 1990 Perkins Act  
9 defines vocational education as organized educational programs offering a sequence of courses which  
10 are directly related to the preparation of individuals in paid or unpaid employment, in current or  
11 emerging occupations requiring other than a baccalaureate or advanced degree." While vocational  
12 education is provided at both the secondary and postsecondary levels, its focus differs somewhat at  
13 each. There are many high schools in the state of Kentucky that offer zero vocational classes and in  
14 some instances, there are also zero post secondary vocational schools in an area. Due to the lack of  
15 information on trade schools, manufacturing programs, and apprenticeship programs students only  
16 think they can attend college; which is giving vocational education a hard time in funding themselves.  
17 This bill proposes to make vocational schools and courses more accessible to Kentucky students who  
18 are currently in high school.

19  
20 Section 2: Based on the research the Kentucky Youth Assembly should act to provide necessary  
21 funding to vocational schools. Some solutions for money would be reallocating money already in the  
22 education fund which is already in effect, this way taxes would not have to be raised at all. The  
23 reallocated funds would more adequately fund the school in providing vocational classes. Each district  
24 would decide for themselves how much to reallocate and from what that money comes from. Since  
25 every district in Kentucky is different, some areas have a greater need for vocational training than  
26 others. With the money that is received for these programs, vocational schools would be able to  
27 provide more skill and trade education.

28  
29 Section 3: Only 14 percent of this year's college seniors have steady, career-type jobs lined up for their  
30 lives after graduation. Trade schools barely cost half of a normal degree. The average trade school  
31 degree costs \$33,000 over 4 years, which compared to a \$127,000 four year bachelor's degree from a  
32 high ranking school, means a savings of \$94,000. The savings would be even more if students were  
33 able to take dual credit classes while still attending their high school.

34  
35 Section 4: This bill would not need enforcement, rather each district would do what they saw fit in  
36 providing access for Kentucky high school students to take vocational classes.

1 An act to service the health of veterans in the Commonwealth of Kentucky by providing access to  
2 health care at any hospital or medical center.  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
5

6 Section 1: Currently there are 27 Veterans Affairs hospitals spread throughout the state of Kentucky.  
7 A majority of hospitals and clinics available have not been updated in many years and do not contain  
8 the modern technology that must be used to treat patients as they age. Many veterans must also  
9 travel long distances to get the care they need, even when there is a regular hospital in their area. At  
10 the VA hospital in Louisville, Kentucky, there are only 3 doctors for every 1,000 patients (Health  
11 Grove). The government has faced backlash due to an alleged scandal in which veterans were not given  
12 treatment in time. Veterans Affairs departments, particularly ones in Phoenix, have even hidden waiting  
13 lists to prevent the public from knowing about a number of preventable deaths. If it was not for the  
14 inadequate care of the VA many veterans live's could have been saved (USA Today).  
15

16 Section 2: Veterans must apply for a Veteran Health Care card, and if they qualify, then they will be  
17 able to get treatment at regular hospitals, of their choice. A veteran who served 24 months of active  
18 duty or was wounded/injured in the line of duty in the National Guard or Reserves will qualify, along  
19 with current active duty members. The Kentucky Department of Veteran's Affairs will enforce and  
20 oversee the operation.  
21

22 Section 3: The money that would ordinarily go to a VA clinic, from the Federal government, will instead  
23 go to the the institution where the veteran is getting treatment. The state of Kentucky will pay  
24 nothing.  
25

26 Section 4: The bill will go into effect January 1st of 2018, so the system will have an adequate amount  
27 of time to be developed and get set into motion.

1 An act to allow adolescence with a valid drivers license to take themselves to basic doctor appointments  
2 with parent or legal guardian consent  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
5

6 Section 1: Currently anyone under the age of eighteen can not legally attend doctor appointments  
7 without a parent or legal guardian. Many parents can not take time away from work to bring their  
8 child to the numerous doctor appointments. This bill will allow any student with a valid drivers license  
9 to take themselves to "basic" doctor appointments with the parent consent.  
10

11 Section 2: Basic Doctor appointment include Orthodontist, Dentist, Physicals, Eye Appointment,  
12 Physical Therapy, Chiropractor, Check-ups, Dermatologists, Ear-Nose-Throat, and any other  
13 appointment that does not require surgery or a major decision about the patient's life.  
14

15 Section 3: The doctor's office will verify the child's driver's license and parent consent note. It is the  
16 parent's responsibility to content the physician's office and give oral consent along with written  
17 consent.  
18

19 Section 4: Any child who forgets a note will be prosecuted by law. Forgery is a felony and punishable  
20 with up to a \$25,000 fine and five to ten years imprisonment.  
21

22 Section 5: This bill will cost virtually nothing since it just adjusts age limits; no funding is necessary for  
23 this bill to accomplish what it is intended for.  
24

25 Section 6: This bill will be enacted January 1st, 2017.

1 An act to implement computer science/coding classes as an elective in all Kentucky high schools.  
2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5 Section 1: Currently only a small number of Kentucky high schools offer or recognize computer science  
6 or coding classes as an elective. This bill is designed to make computer science and coding classes  
7 available to all students in Kentucky public high schools. There are currently over 500,000 computer  
8 programming jobs available in the U.S., and the demand for experienced coders and computer  
9 programmers is expected to increase at twice the rate of any other profession in the next five years.  
10 The classes created by this bill will utilize the free on-line coding resource Codecademy.com.  
11  
12 Section 2: Coding is the general name for the multiple languages (HTML, Javascript, etc.) used to run  
13 processes within a computer or electronic device. Coding is what makes it possible for your computer,  
14 smart phone, or gaming device to execute programs, apps, and other software.  
15  
16 Section 3: This bill will be enforced by each individual school district and will be overseen by the  
17 Kentucky Department of Education.  
18  
19 Section 4: This bill will not add any additional cost to any school or school district; it will be  
20 implemented through a free on-line resource. The teacher chosen to lead the class will already be  
21 employed by the school/school district and will not require any further training in coding because the  
22 website is self guided.  
23  
24 Section 5: This bill will go into effect for the 2017-2018 school year.

1 An act to make high school classes taken in middle school count towards KEES scholarship money

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: By enacting this bill middle school students taking and passing high school classes will have  
6 those grades averaged into their GPA as a freshman student. As a result, students will be encouraged  
7 to try harder in their classes because of the added incentive.

8

9 Section 2: KEES money is scholarship money awarded to high school students with a GPA of 2.5 or  
10 higher. For every tenth increment the GPA is increased, a student is awarded more money. The KEES  
11 money that one earns throughout high school can be used in any college in Kentucky. Current law  
12 states that a student only receives KEES money from their freshman to their senior year, as long as the  
13 GPA is over 2.5. The student will then be awarded the money each year of college. This bill will amend  
14 current law to include the averages from the high school classes students took when they were middle  
15 schoolers.

16

17 Section 3: The purpose of this bill is for middle school students taking high school courses to receive  
18 money for their achievements. By including the averages from high school classes taken in middle  
19 school when calculating GPA, it could increase students' GPAs and provide them better chances of  
20 acquiring more funding. Moreover, it could encourage middle school students to perform better and  
21 put more effort into their classes so that they receive more KEES money towards college.

22

23 Section 4: The Kentucky Higher Education Assistance Authority currently administrates and supervises  
24 KEES money. They will be the people to enforce and watch over this bill.

25

26 Section 5: KEES money is currently funded by Kentucky Lottery Funds. The Kentucky Lottery Funds will  
27 fund any extra KEES money that students may earn. Although there would be some rise in costs, it is  
28 estimated the cost will be less than 1% increase in the current KEES scholarships awarded, which is  
29 currently well within budget.

30

31 Section 6: This bill will go in effect in the 2017-2018 school year.

1 An act to redistribute 60% of local income tax money to the employee's county of residence.

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: According to Kentucky's revised statutes Title 4, Chapter 65, anyone employed in a tax  
6 district other than the one in which he or she may live, their home county gets no portion of the income  
7 tax earned by the employee. In this bill, we propose that 60% of an employee's local income taxes go  
8 to the employee's county of residence while the other 40% goes to the county in which they are  
9 employed.

10  
11 Section 2: It is typical that the workforce will travel to areas where more opportunity exists.  
12 Consequently, many Kentucky residents in rural counties with low employment opportunities commute  
13 to more urban areas where they may seek jobs. This causes their local income tax earnings to be  
14 distributed in a county where they do not live and, likely, in a county where there is already a stronger  
15 tax base due to the number of employees who live and work there. The commuting employee's tax  
16 contribution does not benefit the area in which his or her family lives, goes to school, utilizes public  
17 works or services or spends the majority of their time when not working. If 60% of the employee's local  
18 income tax were redistributed to his or her home county, the impact on economic development in that  
19 less affluent county would be immediate, significant, and likely, have a direct impact. Such a change in  
20 local income tax distribution could improve parks, services, recreational areas, provide funds for  
21 economic development, and offer resources to improve the quality of life for residents in that county.

22  
23 Section 3: This law will affect businesses, taxpayers, and the economy of counties.

24  
25 Section 4: This will affect all counties in one of two ways: for poorer counties in which residents  
26 commute for work elsewhere, this will positively impact the economy through an infusion of new  
27 resources that come from a redistributed local income tax. For wealthier counties where more jobs  
28 exist, this will negatively impact the economy only slightly due to the population of residents who both  
29 work and live in that county.

1 An act to implement identification for service animals and owners

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: When you see a service animal, you see a well-behaved, calm, gentle pet. They have a  
6 purpose for their owner, such as a seeing eye dog. Unfortunately, people are abusing the name of a  
7 service dog with a phony vest and taking their untrained and often misbehaving animals with them  
8 wherever they go. This bill would require all service animal owners to carry a picture identification of  
9 themselves and the animal. Plus, the animal must wear their vest at all times when in public.

10  
11 Section 2: This law will be enforced by local and state law enforcement, along with business security.  
12 They may randomly ask for the appropriate identification/paperwork.

13  
14 Section 3: Minimal funding would be needed for this bill. The training facility would issue the animal  
15 identification, vest, and certification.

16  
17 Section 4: The pet owners or handlers caught without the appropriate paperwork will be fined  
18 \$150.00. Second offense will constitute being fined \$300. The third offense will be a \$500 fine and  
19 possible incarceration.

20  
21 Section 5: All laws or parts of laws in conflict with this bill are considered null and void.

22  
23 Section 6: This bill will go into effect December 1, 2017.

An act to lower the permit age limit in Kentucky to fifteen.

**Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

Section 1: To get your driver's permit in the state of Kentucky, you must be at least 16 years old. However, this bill would change the minimum age of receiving your permit to age fifteen. The minor would acquire a permit for eighteen months.

Section 2: The purpose of this bill is to expose minors with more experience behind the wheel with parental supervision. This will grant young Kentuckians the chance to learn the rules and responsibilities of the road earlier.

Section 3: Providing minors with more driving experience lowers the rate of car accident related deaths caused by young drivers. With a learners permit the minor will get to drive with adult supervision allowing exposure with a mature driver. Teens with a permit will not be allowed to drive between midnight and 6am. Teens with a permit may not be allowed more than one or two passengers.

Section 4: Penalties for not abiding the permit requirements of specific driving times and number of passenger will account for fines appointed by the judge or officer. Further accounts disregarding the requirements will receive community service and or potential jail time.

Section 5: This law will not require any financial support from the government.

Section 6: This bill will go into affect a year after it is passed.

1 An act to prohibit cell phone use while operating a moving vehicle

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: The current law in Kentucky states that drivers under the age of 18 are prohibited from all  
6 types of cell phone usage while driving. Drivers over the age of 18 are only prohibited from texting.  
7 The amendment to this clause is to prohibit all types of cell phone usage for drivers of all ages.

8  
9 Section 2: There is no additional cost to enforce this bill. The bill will be implemented by the police  
10 enforcement, which is already existing. Therefore, this bill will come at no additional cost, with an  
11 exception to the already existing salary for police officers. The salary is paid by taxes and can range  
12 from \$20,000 to \$50,000 each year per police officer, depending on their job.

13  
14 Section 3: All types of cell phone usage while operating a moving vehicle will be prohibited for all ages.  
15 However, Bluetooth and other hands-free devices will be allowed. Hands-free is defined as a device  
16 designed to be operated without using the hands.

17  
18 Section 4: This bill will assist in avoiding car accidents, and therefore injury and death. According to the  
19 National Safety Council, cell phone use while driving leads to 1.6 million crashes and around 330,000  
20 injuries yearly. As projected by the Association for Safe International Travel, road accidents will become  
21 the fifth leading cause of death in 2030, unless something is done. Since cell phone use is the cause of  
22 at least 26% of all car pileups, prohibiting cell phone usage while operating a moving vehicle would  
23 prevent car accidents, and therefore prevent injury and death.

24  
25 **Section 5: Penalties**

26 Level 1 - Using a cell phone while driving; Ticket and \$100 fine

27 Level 2 - Break law due to phone use; Consequence for law broken and \$500 fine

28 Level 3 - Someone else is harmed due to phone use; Jail time according to judge and \$1,000 fine

29 Level 4 - Someone else dies because of phone use; Jail time according to judge and \$1,500 fine

30  
31 Section 6: This bill will take affect on July 1, 2017.

Section 1: High school and middle school start times will be required to be later than most are now.

Section 2: This will be accomplished by moving both elementary school start times and middle and high school start times later. Generally elementary school start times right now are around 9:00 while middle and high school start times are around 7:30-8:00. To ensure that slight adjustments are possible, yet times are still moved later for high schools and middle schools, high schools and middle schools will be able to start no earlier than 8:30 and elementary no earlier than 9:30-10:00.

Section 3: The meals served now will stay the same. The busing schedule won't have to be changed either, just moved later. Therefore, there will be no extra payment involved.

Section 4: School boards can check in with the schools to be sure and enforce this schedule change. Their superintendents will have to enforce this or they will be fined \$100 if they don't the first year, another \$350 if they don't the second, and then \$500 more if they don't the third. At this point they will be fired.

Section 5: This bill will go into effect June 1, 2018.

1                   An act to require at least 10 minutes of physical activity each school day

2  
3                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5                   Section 1: Our bill will require students to participate in physical activity for at least 10 minutes every  
6                   day they attend school.

7  
8                   Section 2: There isn't a current law requiring middle school students to exercise, however elementary  
9                   and high school students are required to exercise throughout the school day.  
10                  Cost. The new law would cost no money due to the fact that it will be a teacher lead exercise.

11  
12                  Section 3: Exercise boost blood flow to the brain, helping it receive oxygen and nutrients fast than  
13                  normal. A study on SPARKabc has shown that students that exercise while working obtain more  
14                  information, have a better attitude, better behavior and are better learners overall. Students that are  
15                  usually B average went up to an A average after just a few weeks of exercising during class.

16  
17                  Section 4: For students who are physically disabled, there will be different ways they can exercise. Such  
18                  as stretching to sit up tall as they can maintain good posture and engage their core. For students who  
19                  are in wheelchairs can do arm exercise to help improve their ability to move around on their own.

20  
21                  Section 5: When exercising, new brain cells are born in the hippocampus, which is the brain's gateway  
22                  to new memories. Students who exercise tend to be more well-rested due to the fact that their brain  
23                  power and speed is being increased every time they exercise. Also, when you exercise, it allows you to  
24                  be more calm and decreases stress and anxiety. When students are calm, it allows them to focus more  
25                  towards school, which leads to less distractions. This helps the students get better sleep because they  
26                  are not constantly worrying about upcoming tasks.

27  
28                  Section 6: Consequences

29                  For every staff members who do not follow these regulations will be subject to administrative action:

- 30                  • First offense: Verbal reprimand  
31                  • Second offense: verbal reprimand and written up by administration

1 An act to require motorcycle riders to wear approved protective headgear when in motion on public  
2 roads.  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5  
6 Section 1: The current law in Kentucky only requires those under 21 years of age and those within their  
7 first six months of getting a permit to wear a helmet. The amendment to this clause is so that all  
8 passengers and operators have to wear helmets while the motor vehicle is in motion on public roads.  
9

10 Section 2: This bill comes with no cost, excluding the price of the helmet by the rider. The headgear will  
11 be enforced by the police and the Kentucky Transportation Cabinet (KYTC). The headgear must meet  
12 the Federal Motor Vehicle Safety Standard (FMVSS) 218. It should also be labeled by the Department  
13 of Transportation (DOT).  
14

15 Section 3: A motorcycle is defined as a motor driven vehicle having a seat or saddle for the use of the  
16 operator and/or passenger and designed to travel on not more than three wheels in contact with the  
17 ground, not including the wheels added by a sidecar or other extensions, but excluding tractors and  
18 vehicles on which operators and passengers are riding in an enclosed vehicle.  
19

20 Section 4: This bill will be beneficial in preventing head injuries and other risk factors when riding a  
21 motorcycle. According to the Centers for Disease Control, helmets are 67 percent more effective in  
22 preventing head injuries. They also have a 88 percent reduction in the risk of brain injury.  
23

24 Section 5: Penalties of riding a motorcycle without approved protective headgear:  
25

1 An act to legalize the use of physician assisted suicide in cases of terminal illness.

2

3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: This law would revise Kentucky Statutes 216.302 and 311.639 to allow physicians to assist  
6 in the suicide of persons diagnosed with a terminal illness.

7

8 Section 2: Physicians must be state certified in Kentucky and must be willing to participate in the act of  
9 assisted suicide. No physician will be required by law to perform assisted suicide.

10

11 Section 3: Physician assisted suicide is currently legal in 5 U.S. states: Oregon, Vermont, Washington,  
12 California, and Montana. Assisted suicide allows a patient suffering from a terminal illness to escape  
13 from agonizing pain and to retain dignity at the end of their life.

14

15 Section 4: Eligibility determinations for assisted suicide would depend on age, mental capability, and  
16 estimated time to death. Patients must be 18 years of age, have the mental capability to make end of  
17 life decisions, and be within six months of estimated time of death.

18

19 Section 5: After meeting eligibility requirements, patients will be responsible for making a notarized  
20 written request for assisted suicide to their physician. This request will have to be signed by two  
21 additional physicians that certify that the patient meets the eligibility criteria stated above.

22

23 Section 6: The cost to the Commonwealth of Kentucky for this law would be minimal and limited to an  
24 oversight role in the administration of physician assisted suicide. The cost of the procedure would be  
25 borne by the patient.

1 An act to impose new requirement to minor workers on tobacco farms.

2

3

**Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4

5 Section 1: In the US it is illegal for citizens under the age of 18 to purchase cigarettes or tobacco  
6 products, yet according to state law in Kentucky there is no law prohibiting minors to work with  
7 tobacco plants.

8

9 Section 2: Instituting new requirement for minor workers on tobacco farms would help prevent this  
10 problem. These requirements would include the prohibition of minors engaging in the production,  
11 harvesting, or handling regardless of parental permission, unless minor wore proper safety equipment.

12

13 Section 3: This bill would affect tobacco farmers and their minor employees.

14

15 Section 4: 75% of children working on tobacco farms have become victims of nicotine poisoning and  
16 report symptoms including: vomiting, nausea, and skin rashes. Simple protective gear could reduce the  
17 amount of nicotine absorbed and protect from the sun's harmful rays. This protective gear includes:  
18 rubber gloves that reach at least to the child's elbow and a long sleeved shirt that provides substantial  
19 protection from the sun. Every three months, state employees would travel to all tobacco farms in  
20 Kentucky to perform inspections that farms are upholding these set requirements. If not, the farm will  
21 be shut down for two weeks.

22

23 Section 5: This bill would go into effect three months after being signed. Farms would be given a  
24 substantial amount of time to meet requirements. The employer will purchase the gloves. The child and  
25 their family will be responsible for the shirt. Employers will ensure that both items are worn as a proper  
26 uniform. Failure to wear uniform will result in the minor being fired. Inspections will become three  
27 months after bill is signed.

1 An act to provide an educational experience to children with parents who are in rehab for drug abuse  
2 and addiction.  
3

4 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

5  
6 Section 1: Two in every 25 children, under the age of 18, were effected by their guardian(s) being  
7 addicted to or abusing drugs in 2015 (an all-time high). There has also been a high amount of  
8 emotional problems reported by children effected by this problem. This bill proposes that rehabilitation  
9 centers help these children learn about what is going on.

10  
11 Section 2: This will help the children with emotional pain of the neglect from their parents when they  
12 are in rehabilitation. We will help them understand the situation they are in. this will help the rising  
13 number of children with drug abusing parents not have such severe emotional problems.

14  
15 Section 3: This bill states that children with parents that have been convicted of drug overdose or  
16 abuse will be given counseling from people who work at their parent's rehab center. These people will  
17 speak to the children about their current situation and why it happens and how to prevent it from  
18 happening to them. These counseling sessions will be at no charge, because current workers will give  
19 them. These workers will be a good role model and be able to give adequate information have  
20 experience working with drug abusers. These children need an explanation and someone to talk to  
21 about such a traumatizing event. If the child has both parents in a rehab center, the child will go to the  
22 one that matches their gender.

23  
24 Section 4: This bill will go into place starting in 2017. This means it will only affect the children with

1 An act to require carbon emission caps from coal and power plants.

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: There is an overwhelming amount of evidence that carbon emissions are the leading cause of  
6 global warming, and that these emissions also cause a plethora of health issues. In states where a  
7 similar bill was enacted, titled the Clean Power Plan, emissions have been lowered significantly. This is  
8 a reasonable and efficient plan to address this critical issue.

9  
10 Section 2: Power plants emitting more than 12 million tons of carbon emissions, and coal plants  
11 emitting more than 10 million tons of emissions per year must reduce the amount they produce by 1%  
12 of their original emissions per year until January 1, 2030, and it must be maintained at this level. Those  
13 that do not will be fined 1% of their net annual income each year that the company is in violation of  
14 this bill. This will be enforced by a team of inspectors from KDEP (Kentucky Department of  
15 Environmental Protection).

16  
17 Section 3: Small Businesses that provide solely clean energy (hydroelectric, geothermal, wind, and  
18 solar), are eligible for grants from KDEP, and are exempt from property tax on manufacturing property.  
19 Energy companies that get at least 20% of their energy from renewable sources will have property tax  
20 reduced by 10% on all manufacturing premises. These companies will also be "Clean Certified", with  
21 which they can advertise as they choose, and their company name and logo will also be displayed on  
22 the KDEP website. The inspection will be carried out by a team of inspectors from KDEP.

17 constitute a violation of this section.

18  
19 (3) Cruelty to animals in the first degree is a Class D felony.

21 Section 2: Therefore, this is an Act to amend K.R.S. Chapter 525.130 of Animal Cruelty in the First  
22 Degree to Include Treatment of Animals for Cosmetic Purposes as a D Class Felony in Kentucky.

23  
24 Therefore, K.R.S. 525.130 will be amended to the following:

1                   An act to require renewable energy companies to hire and train former coal workers  
2  
3                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**  
4  
5 Section 1: Coal mining was once a main source of employment for Kentucky. Now, however, many of  
6 these companies are becoming bankrupt, leaving coal workers unemployed. The overall unemployment  
7 rate because of layoffs in the coal industry is 16 percent. They also may have a limited amount of  
8 education, because higher education is not required for mining coal.  
9  
10 Section 2: The proposed solution to this issue is to provide coal workers training for jobs with larger  
11 renewable energy companies. The training will be paid for by the government of Kentucky. The coal  
12 workers will first be trained by employees at the energy companies and will later be taught by the first  
13 generation of coal workers who had previously joined the company.  
14  
15 Section 3: With this proposal Kentucky can start moving over to clean energy. The most common  
16 method of clean energy in Kentucky is solar energy, and out of all our energy usage, only 4.64 percent  
17 is renewable energy. Renewable energy comes with many benefits, such as no pollution, resources are  
18 unlimited, and less expenses.  
19  
20 Section 4: If larger clean companies refuse to hire former coal workers by March 2018, they will pay a  
21 fine of \$2,500 that will go towards the development of clean energy in Kentucky. With each infraction  
22 the fine will increase by \$1,000. If over 8 percent of the people who apply for jobs that do not require  
23 additional education are former coal workers the government will provide the company \$25,000 per  
24 year. This percent will increase by 10 percent over time if the bill is passed.  
25  
26 Section 5: March 2018 will be the deadline for when the companies are required to hire former coal  
27 workers. The deadlines will allow enough time for training and employment.

1 An act to establish an open primaries system in Kentucky

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: Currently, in the state of Kentucky citizens are only able to vote in closed primaries. This bill  
6 will make it possible to vote in open primaries.

7  
8 Section 2: The open primaries will operate like a normal election and take place in polling places. The  
9 Secretary of State will make a ballot with all candidates no matter what party and after the election  
10 count the votes. To replace the separate days for Democratic and Republican primary elections, the  
11 Secretary of State will set one specific date for the open primaries.

12  
13 Section 3: Poll workers will be paid \$10 for the training they have to take and \$60 for a day of work.  
14 Based on the 2016 presidential primary, the state will need around 230 poll workers to follow the  
15 ratio of one poll worker for every 2,000 voters. The estimated cost will be \$16,100. To consider the  
16 population growth of voters, there may need more poll workers. Based on how many people are  
17 registered as independent or third party, the state will need to have an extra 120 poll workers. This  
18 will result in an added cost of \$8,400. In total, the cost for poll workers will be \$24,500.

19  
20 Section 4: The money to fund this bill will come from the taxes collected by the county clerk's office.  
21 This will not require us to raise taxes for this, as funds are already taken out for elections. The  
22 Secretary of State will not have to be paid extra because counting votes and making ballots is part of  
23 their job.

1 An act to make college more affordable for students in Kentucky

2  
3 **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: In Kentucky's junior high schools, KEES money is not awarded to those who are enrolled in  
6 high school credit courses. Although some students have trouble keeping grades up in these courses,  
7 those who keep a GPA of 2.5 or higher shall receive KEES money for their excellence.

8  
9 Section 2: KEES stands for Kentucky Educational Excellence Scholarship. The average amount of  
10 disbursed KEES award is just over \$1,200 per student per academic year. Senate Bill 21 dedicated  
11 store lottery proceeds to fund KEES. 45% of the proceeds goes to KEES money after \$3 million is  
12 taken out for Childhood Literacy Programs. 55% of the proceeds goes to CAP and KTG. When this bill  
13 is to pass, the lottery proceeds shall be distributed evenly amongst all of the other programs, including  
14 KEES, in which it funds.

15  
16 Section 3: The College Access Program grant (CAP) is a gift assistance that does not have to be repaid.  
17 You must demonstrate need as determined by the Free Application for Federal Student Aid (FAFSA) to  
18 receive this grant. Kentucky Tuition Grant (KTG) is a grant that is available to Kentucky resident  
19 undergraduate students who are attending or planning to attend an eligible Kentucky independent  
20 college.

21  
22 Section 4: The requirements high schoolers must meet to be eligible for KEES are as follows:

- 23 • Requirement 1: Be a US citizen, national or permanent residence
- 24 • Requirement 2: Be a Kentucky resident
- 25 • Requirement 3: Earn at least a 2.5 GPA in any year of high school
- 26 • Requirement 4: Attend and graduate from a Kentucky high school or other approved high
- 27 schools
- 28 • Requirement 5: Must not be a convicted felon

29 When this bill is passed, the requirements shall be altered to fit the needs of junior high students  
30 without altering the high school students' requirements

31  
32 Section 5: This bill will go into effect immediately after passage.

1                                   An act to require monthly lockdown drills for schools in Kentucky

2  
3                                   **Be it enacted by the Youth Assembly of the Commonwealth of Kentucky**

4  
5 Section 1: The amount of school shootings is increasing every year. In the 2015-2016 school year, 52  
6 school shootings occurred in the United States. In these shootings, 30 people were killed and 53 were  
7 injured. That would mean at least one shooting per week.

8  
9 Section 2: In the state of Kentucky, schools are required to have a lockdown drill once in August and  
10 once in January. If this bill is passed, the requirement would be a lockdown drill once every month.

11  
12 Section 3: During the lockdown drills, schools will be required to use the A.L.I.C.E. procedure. A.L.I.C.E.  
13 is an acronym that stands for Alert, Lockdown, Inform, Counter, Evacuate. It is important that  
14 everyone use the A.L.I.C.E. procedure because students will know what to do at any school. The  
15 A.L.I.C.E. procedure will require all staff members to take two trainings. Both trainings will be given by  
16 the school resource officers. The first training will be an orientation. The orientation will be taken  
17 every other year. In the orientation, the resource officers will talk to their staff about the procedure  
18 and explain it. The second training will be the physical training for staff. This training will occur on all  
19 the years the orientation training does not occur. In this training, the resource officers of the schools  
20 will act as if they are an intruder. The staff will try to take down the resource officer as if it were a  
21 real situation. These trainings will only be required for the staff, not the students. After training, the  
22 staff will be required to tell students the procedure.

23  
24 Section 4: There will be no cost to this bill. This is because the training that the resource officers will  
25 provide will be in their job requirement. The penalties for not complying with this bill are as follows:

- 26           • 1st Offense: Warning  
27           • 2nd Offense: 10% of state funding removed  
28           • 3rd Offense: 25% of state funding removed and removal of principal  
29           • The state funding will be restored once schools begin complying with this bill.

30  
31 Section 5: This bill will go into effect in the 2017-2018 school year.

## A Self-Guided Tour of the KENTUCKY STATE CAPITOL

### SECOND FLOOR – JUDICIAL BRANCH

- 13 From the top of the steps on the second floor, observe the view of the nave, or **Main corridor**.  
This spectacular space is over 300 feet long. It is lined with 36 huge, one piece columns made of Vermont granite. Note the colorful art skylights and grand staircase.
- 14 Also from here you can see the murals in the lunettes on either end of the nave. Painted by Gilbert White, the murals depict moments in the early history of Kentucky.
- 15 The one over the East wing is a representation of Daniel Boone's first view of the Bluegrass region, or "beautiful level of Kentucky," in 1769.
- 16 The mural to the West shows Boone and Richard Henderson concluding the Treaty of Watauga in 1775 which allowed the Transylvania Company to purchase much of the land that is Kentucky from the Cherokee Indians.
- 17 Stepping outside of the State Reception Room, a small **chapel, press offices**, and the **office of the Chief Justice** (not open for tours) are on the West end of this floor.
- 18 Perhaps the most elegant room in the Capitol, the state reception room was intended as a place for special events and as the reception area for the governor's office, originally next door. Inspired by grand salons in European palaces, the room was restored in 1995 to its original grandeur. The placement of the mirrors on either end of the room creates the illusion of an infinite view, like that in the Hall of Mirrors of the Palace of Versailles in France.
- 19 Stepping outside of the State Reception Room, a small **chapel, press offices**, and the **office of the Chief Justice** (not open for tours) are on the West end of this floor.

### THIRD FLOOR – LEGISLATIVE FLOOR

- 20 **Senate chamber** (on the West end of the building). You may enter the Senate if the chamber is not in use.  
Raised galleries allow the public to view the Senate's deliberations during legislative sessions. There are desks for thirty-eight senators, who also have individual offices in the Capitol Annex.
- 21 **House of Representatives**. You may enter the House chamber if it is not in use.  
The House of Representatives, like the Senate, also includes spectator galleries and desks for members. However, with 100 members, the size of the House requires some additional features. Votes are recorded electronically and displayed on panels on either side of the Speaker's desk. Each member of the General Assembly has a desktop computer.

**The Legislative Branch of Kentucky State Government:**  
Like most states, Kentucky has a bicameral legislature - that is one with two components. The "lower" and larger body is the House of Representatives; the "upper," smaller body is the Senate. The Speaker of the House presides over that chamber, and the President of the Senate chairs deliberations there. Other legislative officials include the House and Senate majority and minority leaders. Together, the House and Senate are known as the Kentucky General Assembly. The General Assembly meets in regular session for sixty working days in even years, and for thirty working days in odd years. The governor of Kentucky can call Special Sessions to address specific issues. Legislative chambers and offices occupy the third floor of the Capitol.

At times the Capitol may be under repairs to ensure that it remains a proud symbol of Kentucky. Portions of the building may be closed to tours. Please accept our apology for any inconvenience.

The Commonwealth of Kentucky does not discriminate on the basis of race, color, national origin, sex and religion, age or disability in employment or the provision of services and provides, upon request, reasonable accommodation to individuals with disabilities.

### Why is Kentucky called a "Commonwealth"?

In this country, "commonwealth" is another word for "state". The term implies a commitment to the "commonweal," or common good of the people. Several states (Massachusetts, Pennsylvania, and Virginia, in addition to Kentucky) call themselves commonwealths. Since Kentucky was formed from Virginia, our state's founders decided to use the term too.

### Capitol vs. Capital.

A capitol houses legislative chambers and may also have courtrooms and government offices. A capital is a city that is the seat of government of a state or nation. This building is a capitol. Frankfort is a capital.

### State Song (adopted by legislature 1996)

*"My Old Kentucky Home"* by Stephen Foster  
 The sun shines bright in My Old Kentucky Home,  
 'Tis Summer, the people are gay;  
 The corn-tops ripe and the meadow's in the bloom  
 While the birds make music all the day  
 The young folks roll on the little cabin floor,  
 All merry, all happy and bright;  
 By'n by hard times comes a knocking at the door  
 Then My Old Kentucky Home, good night!

Chorus  
 Weep no more my lady  
 Oh weep no more today;  
 We will sing one song  
 for My Old Kentucky Home  
 far away
